

VS Code interface showing a JavaScript file named `app.js` with the following code:

```
function App() {  
  const addProduct = async () => {  
    // ...  
  };  
  window.location.reload();  
};  
  
return (  
  <div style={{ padding: "20px" }}>  
    <h1>Product List</h1>  
    <input  
      placeholder="Product Name"  
      onChange={(e) => setName(e.target.value)}  
    />  
    <input  
      placeholder="Price"  
      onChange={(e) => setPrice(e.target.value)}  
    />  
    <button onClick={addProduct}>Add Product</button>  
  
    <ul>  
      {products.map((p, index) => (  
        <li key={index}>  
          {p.name} - {p.price}  
        </li>  
      )}  
    </ul>  
  </div>  
)
```

The terminal output shows the command `npm start` being executed, resulting in the message: `webpack compiled successfully`.

The status bar at the bottom indicates the file is `app.js`, line 34, column 35, with 2 spaces, UTF-8 encoding, and CRLF line endings. The language is JavaScript. The user is signed out.
